

Company Profile

NIKITENA

IL PARTNER IDEALE PER LE TUE SFIDE DIGITALI

CYBER SECURITY SPECIALIST

Nikitena

Who are we?

Nikitena brings together a wealth of professional expertise, with over ten years of experience in cybersecurity, including specialized work in the aeronautical and military sectors.

The challenge we face

In a market flooded with generic solutions, Nikitena operates as a **Cyber Security boutique**

deliberately selective, offering niche services where our deep expertise delivers value

Strategic Investment

Cybersecurity is not just a compliance requirement, but a strategic driver that strengthens organizations. It enables secure, reliable, and innovative operations while delivering long-term competitive advantage.

Our Vision

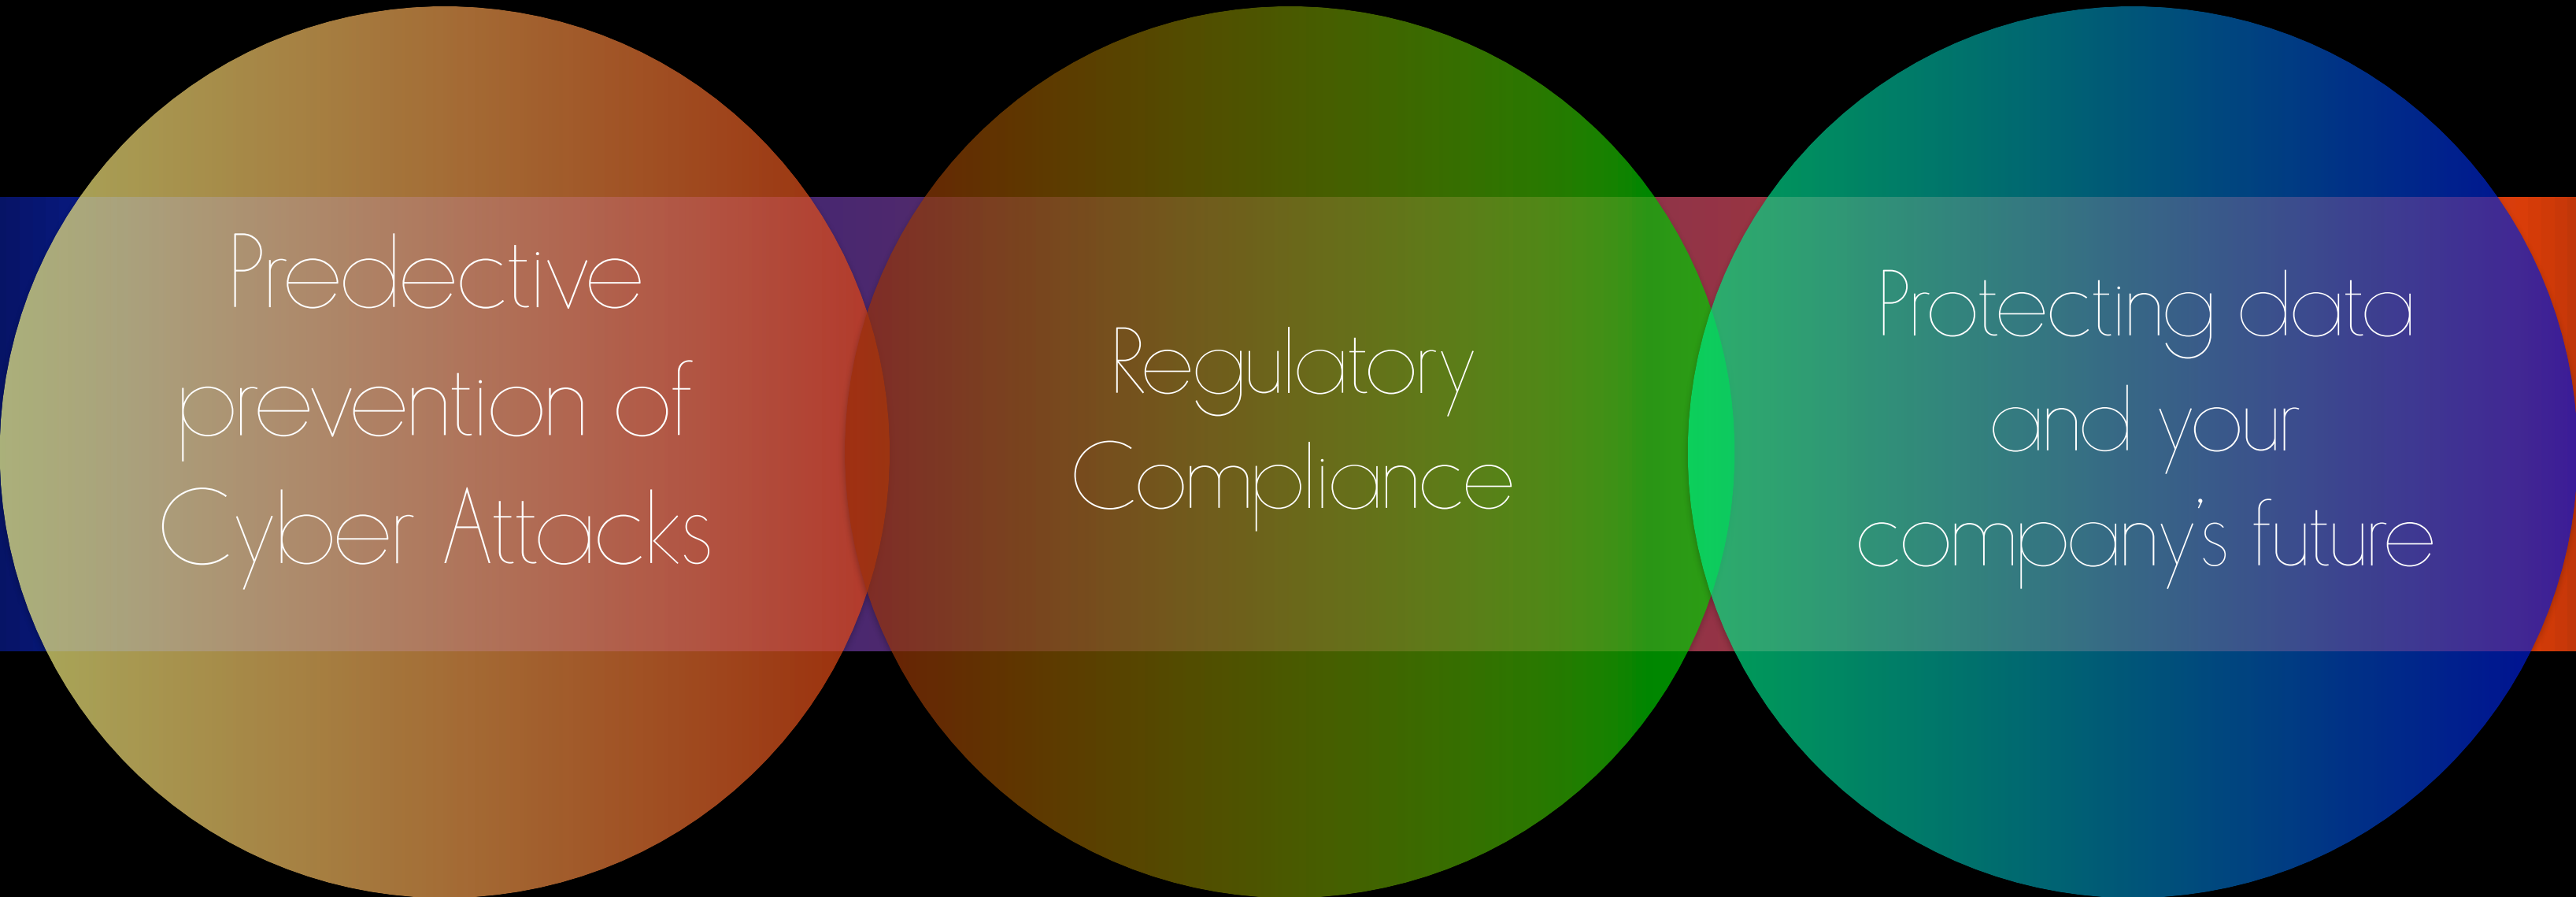

Not just protection from attacks, but operational continuity

Safeguards corporate reputation

Enables innovation

Our Values

We advocate a responsible and strategic approach to safeguarding organizations from cyber threats.

Predictive
prevention of
Cyber Attacks

Why Nikitena?

Cybersecurity isn't a one-time fix achieved by installing software or securing systems. It's an ongoing process requiring continuous monitoring, updates, and timely interventions.

We stand by your side before, during, and after solution implementation

24/7 support because threats don't keep business hours.

Our team works closely with you, becoming an extension of your organization.
